

JOB VACANCY

Ability Shetland are looking for a dynamic and enthusiastic person to join our team as **Sports Development Coordinator**. They will co-ordinate and develop a range of physical activity and sport sessions and events for children, young people and adults with physical, learning and sensory disabilities across the Shetland Isles.

Post Title: Sports Development Coordinator
Salary: Starting at £27,468.73 (includes Islands Allowance)
Hours: 35 hours per week
Duration: 3 year post subject to funding
Based: Predominantly Market House (Third Sector Hub) in Lerwick, pending covid-19 restrictions.

Partners including the local authority, third sector organisations and NHS Shetland recognise, through the Active Shetland Strategy Group, that it is evident there is a high demand and a lack of provision of inclusive physical activity and sport opportunities on the island. There is a lack of confidence within the sporting sector to offer inclusive opportunities and there is a need to change perceptions and change culture through education and training as there is currently a lag between philosophy and practice. The resource of a Sports Development Coordinator within the Ability Shetland team is essential to pull it all together and realise the ambitions of the island.
